QUEENS COLLEGE

QUEENS COLLEGE

HISTORICAL

Fifty-nine years ago, this institution began its career under the name Charlotte Female Institute, in a beautiful building which stood as an ornament to the city for forty-five years. In 1901, this building gave place to a much larger one, whose cornerstone bore the title Presbyterian College for Women. Two years ago, it became apparent that the encroachments of a rapidly growing city would make it impossible for the Trustees to develop the institution further without changing its location. A beautiful, wooded campus of twenty-five acres, overlooking Charlotte from the highest elevation in Myers Park, was at once secured, and five buildings have been erected thereon, viz.: Administration, Music, Science and Art, and two Dormitories. The detailed plans for heat, light, baths, ventilation, and general sanitation are excellent. The Queens Road Boulevard, one hundred and ten feet wide, ornamented with trees, shrubbery, and flowers, circles by the College. Electric cars connect the College with the Southern Railway Station without change. The Trustees have given this old yet new institution the name Queens College, in harmony with other historic names in Mecklenburg County, and in revival of the name given to the first College in North Carolina, erected in 1771.

LOCATION

Charlotte is an ideal location for a Woman's College. It is the largest city between Richmond and Atlanta, and young women pursuing their studies here have advantages which cannot be had in smaller places. Many distinguished lecturers, musicians, and artists of whatever sort, who visit the South, are to be seen or heard in Charlotte. The city is eight hundred feet above the sea, and has an average temperature of fifty-nine degrees Fahrenheit, the United States Government Weather Bureau reporting twenty-one degrees above zero as the lowest temperature for the year 1913, and fifteen degrees for 1914.

THE BUILDINGS

There are five main College buildings, constituting the essential part of a broad scheme of development. All these buildings are built of Indiana limestone and tapestry brick, and roofed with tile, presenting an imposing group of handsome structures, rarely excelled.

The Administration building is one hundred and fifty-two feet long, and contains the college parlors, offices, library, Society halls, Y. W. C. A. rooms, seven recitation-rooms, dining-rooms, and fireproof kitchen. No students sleep in this building.

The Science and Art building is one hundred and ten feet long. In this building are housed the chemistry, physics, and biology laboratories, with several recitation-rooms on the first floor. On the second

floor are the Art rooms, looking upon the front campus; while in the center and rear are the physical culture rooms. The gymnasium is fifty-two feet long and fifty-one feet wide. In connection with the gymnasium and athletic work, are tile-floored rooms for private showers, and lockers.

The Music Building is one hundred and ten feet long, and contains the College Chapel, and twenty-six other rooms for the exclusive use of the music department. The Chapel has a seating capacity of five hundred, and is equipped with a three-manual organ and two concert grand pianos. The practice-rooms are equipped entirely with new pianos.

The two Dormitories are replicas of each other. Like all the other College buildings, they are limited to two stories. Each is one hundred and sixty-nine feet long. Between every two rooms is a lavatory and private bath, with running hot and cold water. Each room has a large trunk and clothes closet, also window seat, two windows, two dressers, two single beds, three chairs, two electric lights, one table, and one wall mirror six feet long. The most modern system of steam heating has been adopted.

Mr. John Nolen, the distinguished landscape architect, of Cambridge, after a recent visit wrote as follows:

"This afternoon I visited Myers Park and Queens College. There I met President Caldwell by appointment, and went over the College. I found things sur-

prisingly in order and complete for a first year, and exceedingly attractive. I don't believe that there is an educational institution in the South that has any better plant, either in land, location, or in buildings. It is convenient, appropriate, beautiful, and quite up-to-date in every detail of construction."

Queens College was founded by Presbyterians. Its religious and moral life are dominated by the ideals and traditions which obtain in that Church. The College, however, is not sectarian, and the utmost care is taken to avoid interference with the religious preferences of its students.

THE GOVERNMENT

The whole government is conceived and executed with a view to making the College a pleasant, busy, happy, and well-ordered home. Its object is to do right because it is right.

Courtesy and kindness are the uniform rule of the institution. The honor, pride, and interest of the students in the success of the College are appealed to. Self-government is fostered as far as possible. The self-governed are always the best governed.

It will be our aim to give the students every privilege consistent with proper student life and good discipline; but rules found necessary for the best ordering of a large body of students will be firmly, though kindly, enforced.

REQUIREMENTS FOR ADMISSION

Students are admitted either by certificate or by examination.

Queens College accepts all certificates of work completed in high schools accredited by the University of North Carolina, or from high schools in other States accredited by the Commission on Accredited Schools of the Southern States.

The College also accepts certificates from its own list of approved private and church schools. All certificate students, however, are admitted on probation. Those whose work proves unsatisfactory within the first month will be advised to take the next lower course.

Students desiring to be admitted on certificate should send to the President for a blank certificate, to be filled out and signed by the principal of the school they are attending. Candidates will find it much easier to attend to this before their school breaks up for the summer. All certificates should be filed with the President not later than September 1 of the year in which the student wishes to enter.

Candidates for admission to the Freshman Class are required to pass examinations on all subjects demanded for admission unless they have a certificate from an accredited school. Examinations will be held Monday and Tuesday, September 13 and 14, 1915.

In every case, our application blanks, furnished upon request, should be filled out in advance and forwarded to the College.

THE DEGREE

To receive the B. A. degree from Queens College, students must complete, to the satisfaction of the Faculty, sixty-two hours of work, of which two shall be in the gymnasium.

Certificates of proficiency will be given to those pupils who complete satisfactorily the course of study in any subject, and who in addition present, by April 2 just preceding the completion of the course, a thesis of not less than two thousand words, prepared under the direction of the head of the department.

No reports, certificates, or diplomas will be delivered until all bills are settled.

A graduation fee of five dollars for Diploma, and two dollars and fifty cents for Certificate, is charged at the close of the College Course.

Students taking special studies will be admitted, but the program of all boarding pupils must include at least twelve hours per week, appointments for lessons in Music, Art, and Expression being counted in the number.

To be permitted to proceed with her class, the student must make by recitation, test reviews, and examinations during the year, an average of at least seventy-five. There will be frequent test reviews during the year, and semi-annual examinations.

Written excuses for absences from class are required in all cases, and for an unexcused absence there will be a deduction of four points from the complete grade.

The results of the examinations, combined with the average of class standing and test reviews, are included in the reports at the end of the term, and this combined report determines the standing of the pupil in her classes. Absence from examinations will not be excused, except at discretion of the Faculty. Unexcused absences will not only cause loss of standing, but may subject the student to further discipline.

When pupils have selected a course of study, they will be required to adhere to it, unless permitted by the Classification Committee to make a change.

No course will be offered to less than three students.

Reports will be sent to parents and guardians.

BIBLE

DR. BRIDGES

This College is built upon a firm belief in the inspiration of the Bible, and it is the aim of this course to make the students thoroughly familiar with its facts. The endeavor will be to make this course one of peculiar interest, and one that will influence the lives of the students.

It begins with the Life of Christ, then takes up the Old Testament in order to show that the New Testament is only the unfolding of the Old.

The History of the Church is next presented, as recorded in the Acts of the Apostles and the Epistles, and continued down to the present time.

While other books will be used throughout the course, the Bible will be the main text-book.

BIBLE COURSE

Course 1. *Life of Christ.* The object of this course is to make the student familiar with the leading facts of the Life of Christ, so that she may know it as a whole. The entire Bible is used to throw light upon this study.

Text-books: Sell's Bible Studies in the Life of Christ, supplemented by constant study and comparison of the English Bible, and also by a liberal use of the best maps.

Two hours a week for either term.

2. *Old Testament.* This course embraces a study of the geography of the Old Testament. Then the entire book is rapidly passed over, special attention being paid to the bearing of the different parts upon the questions of our day.

Text-books: Sell's Bible Studies by Periods. Constant use of the English Bible.

Two hours a week through the session.

Text-books: Wharey's Church History, supplemented by lectures.

Three hours a week, Second Term. Open to students Completing Course 1.

PHILOSOPHY

DR. BRIDGES

The aim of this course is to develop the reasoning faculty in the student, and to make her understand thoroughly the laws of her own mind.

Every effort will be made to divest this study of the dryness so peculiar to it, and to make the students regard the mind as a machine regulated by its own laws—which she should study at close range.

In Course 1 attention will be given strictly to Psychology; and in Course 2 Logic will occupy the First Term, and Ethics the Second. In the study of Ethics, the various theories of the sensualistic school will be thoroughly reviewed, and the student will be shown

their falsity, and taught that the moral judgments are intuitive, and spring from an original faculty of the soul.

Course 1. *Psychology*—Davis.

2. *Logic*—Davis. *Ethics*—Valentine's Ethics.

The first part of the year is devoted to a study of the raw metals and their compounds, and through this the student becomes familiar with general chemical principles. The latter part of the year is given to the consideration of the metals. The practical and interesting features of chemistry are emphasized as far as possible.

Three hours per week throughout the year.

This course must be taken by all students who do not offer chemistry for entrance. If chemistry is offered for entrance, the corresponding course in Physics must be taken in the Junior or Senior year.

PRACTICE

Practical gymnastics, two hours a week from October 1 to May 1, required of all students except Seniors.

Folk and esthetic exercises are given in connection with this line of work.

ATHLETICS

Outdoor work during the Spring and Fall includes basket-ball, tennis, volley-ball, track work. This work aims to improve the general health of the body, by giving its parts such exercise as will best aid their health and development. Competitive games teach the student self-control, a sense of fairness, and a love of good, healthful, and vigorous exercise. All pupils should be provided with black rubber-soled shoes, white middy blouses, and blue serge bloomers.

An abundance of tennis and ball courts have been provided, and the winter climate is so mild there are opportunities for outdoor exercise practically during the entire school year.

The large and beautiful campus of the College makes outdoor life for the students not only possible, but ideal.

Since good health demands daily outdoor exercise, the College furnishes to all students cards upon which the amount and kind of exercise must be registered. These cards are given to the physical director every two weeks, and the contents noted. Failure to present exercise cards, or to take the required exercise, will be esteemed a serious offence, and will be punished by the executive.

Realizing the great importance of supplying young and growing bodies with nourishing food, strict attention will be given to the quality of the College menu.

MUSIC, ART, AND EXPRESSION

1 MUSIC

The College offers superior advantages in Music, Art, and Expression. These subjects are open to all students admitted to the College and to the Fitting School.

Candidates for the B. A. Degree who wish also the Diploma in Music should plan to devote five years to the College Course.

Students who are not candidates for the B. A. Degree, but desire to take the Diploma in Music, must complete the work of the Freshman Class, and must also for a period of two years take six hours a week of Academic work.

All resident students desiring to specialize in Music, Art, or Expression, but who wish to take neither the B. A. Degree nor the Diploma in Music, will be given the opportunity of doing that work which they wish. All such students are expected to do fifteen hours of work, six or nine of which must be Academic. Non-resident students will be given the opportunity of doing any special work they may wish.

All financial and College arrangements are made through the President. No student should commence

any course in music before proper registration has been made at the President's office.

The facilities for teaching, practicing, and ensemble playing are wholly adequate. For Concert, Recital, and Lecture purposes there is a fine college auditorium, with a seating capacity of five hundred, and furnished with opera chairs. Its musical equipment includes a large and excellent three-manual Concert Organ, also two Everett full Concert Grand Pianos.

The plan of instruction has a solid foundation, broad in scope, and high in standard, the purpose being to present courses in each department that shall be logical, rational, sympathetic, and productive of musical thought and culture.

Attention is particularly called to the unusually complete course in theoretical branches; they are arranged as a parallel to the courses in practical music, the object being to train the young student thoroughly in the technics of composition and esthetics of the art of music.

These courses are obligatory, if a student desires to graduate in any branch of practical music.

Periodical recitals are required from students in all departments; these embrace both ensemble and individual performance. Public concerts, recitals, and lectures upon musical subjects, are given, from time to time, by the Faculty and advanced students.

Systematic practice being of the utmost importance for rapid advancement in music, personal supervision will be given by the Director and Musical Faculty generally.

A student desiring to sing or play at a public event in the city, should ask and receive the consent of the Director before doing so.

A knowledge of music is now considered a necessary part of a liberal education, and society demands that a musician shall be broadly trained as regards general culture, as well as in the specialties of her own art. This being especially so in the case of one preparing to teach, attention is called to the catalog statement bearing upon the teachers' course.

In the collegiate courses, music is made an elective study. This enables students to include music in their scheme of general education who desire to do so.

The courses of study include Piano, Organ, Violin, Vocal Culture, Theory, Harmony, Counterpoint, Form, Analysis, and Acoustics; also a course of general Reading and Musical History, selected by the Director of Music to suit the requirements of the pupil.

The Faculty of Music is composed of carefully-selected teachers, who have had first-class European or American training, selected with a view of imparting instruction upon homogeneous lines, both as regards special lines and grades of study.

PRACTICAL MUSIC

The study of Theory is essential as a preparation for any course in practical music. All who enter for music are expected to join the class in this subject, or pass the test examination.

Where specific studies or pieces are mentioned, they are to be taken as specimens of types which can be replaced by others of a similar nature, at the discretion of the teacher.

Each division is intended to be a year's course, but it must be distinctly understood that no grade certificate will be awarded unless all-round satisfactory progress has been made.

As the Organ is principally used in connection with the church service, opportunity will be afforded, from time to time, for organ students to play for worship, and special attention will be given to the art of Service Accompaniment.

The Manual scale and arpeggio work is the same as for the corresponding grade in pianoforte playing, and is best learned on the pianoforte.

The College Organ, upon which the students practice, was built for the Auditorium of the late Charleston Exposition, and there used for recital purposes. The gold medal for excellence in organ building was awarded to the builder, M. P.

THE FITTING SCHOOL

QUEENS FITTING SCHOOL

Queens College does not wish to curtail or to discourage the work of the high schools within its territory. By its standards and its demands it would like to aid in building up the standards and efficiency of the high schools. It does not under any circumstances wish to entice into its classes those who can do their work at home. Nevertheless, it recognizes the present necessity of safeguarding its standards by maintaining a College Fitting School.

There are in our own State and in our neighboring States scores of high schools doing only one or two or three years of work. The girls who finish these schools and who wish to go to college must have a school in which to finish their preparation. We offer such a school. Its work in detail is given in this catalog.

The Queens Fitting School will employ only the best teachers, those who have adequate preparation for the work in hand. The explicit requirements of our standard colleges, both as to quantity and quality of work, will be constantly referred to. Its standards of thoroughness and efficiency will be the same as those of Queens College. Its students will receive the care and supervision necessary for training young girls, and they will share the College home and enjoy the College life.

This Fitting School will be kept up until the condition of the high schools renders its further maintenance unnecessary.

LIFE AND WORK IN THE FITTING SCHOOL

A girl in the school is at that period of life most important for the foundation and development of character, hence every thoughtful parent will wish to know definitely of the environment of the girl entrusted to the school.

The indispensable qualification of every teacher employed is Christian character. An earnest effort is made to fill the school and the home with a spiritual atmosphere. A high moral tone pervades the whole institution. Only such restraint is exercised as is necessary to secure the right beginnings and uniform maintenance of proper habits. Honesty and order must be the watchwords of the school. To each girl there will be granted just so much liberty as she is capable of using aright. Those students who cannot readily and promptly bring themselves into an earnest and conscientious support of the administration will not be allowed to remain.

REQUIREMENTS FOR ADMISSION TO THE FITTING SCHOOL

For the year 1915-1916, the student coming into the school must have completed satisfactorily the eighth-grade work in a first-class school.

ADMISSION TO ADVANCED CLASSES

In order to be admitted to the advanced classes, students must furnish satisfactory proof that all intermediate work has been done. The assignment of work will be made by subjects rather than by classes. The objects kept in mind by the Faculty are (1) to require no repetition of work which has been previously done in a satisfactory manner, and (2) to secure the completion of the course in as short a time as possible.

Admission is granted in two ways: (1) by certificate; (2) by test.

1. *Admission by Certificate*—A certificate from a school which we recognize as of equivalent grade is accepted for those subjects, or parts of subjects, covered by it. This certificate must be explicit in every particular, and must be made on our own blanks, which will be furnished by us upon application.

2. *Admission by Test*—Students coming from schools whose courses have been approved by the Faculty of the Fitting School will be tested as to their ability to do the work desired.

Written examinations are not required in those subjects which will be pursued in the Fitting School. In order to determine the proper classification of the applicant in such subjects, oral tests, supplemented by written exercises, are given by the heads of the respective departments. Assignment to classes based upon these tests is subject to change whenever and in whatever particular the head of the department and the teacher of the class may determine. In these tests, stress is not laid upon fullness and freshness of knowledge. The object is to find out the thoroughness and the spirit of the previous work, and the natural ability of the student. The anxiety and embarrassment attendant upon entrance into a new school is taken into account. Whatever method of test is used, the full information asked of those who enter upon certificate is required.

English Grammar and Arithmetic—Any student who, in any part of her course, shows signs of weakness in either English Grammar or Arithmetic, will at once be thoroughly tested; and, if necessary, review work will be given to her in one or both of these subjects.

No mid-year or final examination is to be taken anywhere except at the Fitting School, and under teachers of the Fitting School.

Certificates will not be accepted for work done in the summer, except in case of such certificates as would be accepted by the State University.

GENERAL INFORMATION

GENERAL INFORMATION

RELIGIOUS EXERCISES

As soon after their arrival as practicable, students are required to select their church home, which ordinarily must be the church of their parents. They are expected to be regular attendants at this church on Sunday mornings. All other resident students worship in a body, alternately at the First and Second Presbyterian Churches.

Attendance at daily chapel exercises, conducted by the President, is required.

Unexcused absence from chapel will be considered a serious fault, and will be punished by the executive.

A service is held every Sunday evening by the College Young Women's Christian Association. There are also mission study classes conducted under the auspices of the Association by members of the Faculty.

The students hold a prayer meeting of their own each evening after study hour.

Every effort is made to promote earnest and decided religious life in the College.

LITERARY SOCIETIES

The students have two Literary Societies, the Gamma Sigma and the Pierian. These Societies have a large membership, and are accomplishing much good

for themselves and for the College. Under their fostering care a very good library has been gathered. Some of the alumnae have presented books, and it is hoped that other friends of the College will also help to fill its library shelves with reference works.

Through the efforts of the students, assisted by friends, the two large Society halls have been furnished.

The Society halls are on the first floor of the Administration Building, on either side of the College parlors.

HEALTH

All the natural conditions of good health are found here, but since no locality, even under the best circumstances, is exempt from sickness, Queens College has made every preparation to prevent it, and also to treat it if it comes.

The medical certificate furnished to each student must be filled out by the family physician, and sent in to the President after September 1.

At the beginning of the year, each student is examined carefully by the resident physician and the physical director, and parents are notified of any irregularity requiring special corrective exercises. If upon examination girls are found to be unable to take the regular gymnasium work they will be put in a special class.

A specialist examines each student, and reports to parents the condition of eyes, ears, nose, and throat.

Each student should present evidence of vaccination within three years.

Lectures will be delivered to the student-body on personal and sanitary hygiene, and every means known to preventive medicine to ward off sickness will be used. If sickness occurs, the College physician is immediately present to render skilled attention. A trained nurse, a graduate of one of the best hospitals, and with much experience, has charge of the Infirmary, under the College physician, and gives her entire time to looking after those who need her care. No charge is made for use of Infirmary, nor for services of the nurse in ordinary cases. All medicines and extraordinary expenses incurred by the College in contagious diseases must be paid for by patrons.

Parents and friends are *earnestly requested not to send boxes containing edibles*, other than fruits, to the students. Rich, heavy food, at irregular hours, is a most effectual means of undermining the health. Chafing dishes are not allowed.

FURNISHINGS

The College supplies all rooms with bedstead, dresser, chairs, mattress, and pillows. Each person has her own wardrobe, and the bathrooms render washstands and crockery unnecessary.

Teachers and students are required to furnish their own towels, bed clothing, including blankets, sheets, spreads, pillowcases, twenty by twenty-eight inches;

table napkins, two clothes bags, and a small teaspoon and drinking glass for their private use in their own rooms; also such rugs as are desired.

Students must bring umbrellas, overshoes, raincoats, kimona, and slippers.

All articles, including trunks, bags, and suitcases, must be plainly and durably marked with the name of the owner. Whatever needs to be washed should be marked with Cash's woven names.

DRESS

No uniforms are required, nor is expensive dressing encouraged by the College, only neatness and simplicity. It is earnestly desired that the utmost simplicity in dress shall prevail, and that the students bring with them only what is needed for entire neatness, both in underwear and dresses. Anything else is inconsistent with the simple, natural life which we wish them to lead, and out of harmony with what is considered the best college spirit. In every possible way, extravagance is discouraged. It is requested that students do not bring with them any jewelry or articles of especial value.

Parents are requested, as far as possible, to have their daughters attend to dressmaking and dentistry before leaving home.

SHOPPING

Students in the Fitting School and in the College classes below the senior will be allowed to shop with a

chaperone furnished by the College three times before Christmas, and four times after. If additional shopping is absolutely necessary, a chaperone, appointed by the Dean, must be paid by the student.

LECTURES, CONCERTS, AND AMUSEMENTS

A number of lectures upon a variety of topics will be given at intervals during the year, as arrangements can be made.

The boarding pupils, invariably under charge of members of the Faculty, have frequent opportunities of attending lectures, concerts, etc., in the city. The best concert and dramatic companies come to Charlotte, on account of the size of the city and of the excellent auditoriums. There are also stated musical and dramatic recitals by teachers and students.

Attendance upon public entertainments is limited, with reference both to the character and the frequency of such entertainments. The Dean reserves to herself the right of absolute veto in all doubtful cases.

ABSENCE

Any absence from recitations or from hours of preparation is a serious disadvantage to the student. No excuse, however good, can give to the student the instruction that has been missed. The only excuses accepted by the Dean will be those for illness or other providential reasons. All doubtful cases will be decided by the Faculty at its regular meetings. On re-

turn to College after such an absence, the student must bring a written excuse signed by the parent or guardian. A resident student will bring an excuse from the resident nurse. A student returning late after a holiday must have a certificate of illness, signed by her family physician. This certificate must be sent directly to the Dean, not brought back by the student.

For every unexcused absence from class, four points will be deducted from the completed grade for that report period. Absence from study-hour must be accounted for and excused in the same way as absence from recitation.

Students returning from week-end or Monday visits must be on the campus by four-thirty on Monday afternoon.

VISITS AND VISITORS

Pupils will receive calls from relatives, or from other acquaintances who bring letters of introduction to the Dean from the parents, on Monday afternoon and Saturday evening. *No visitors will be received on Sundays, or during any regular recitation-hour.*

Young men visitors will not be received by resident students without written permission from parents or guardians, and then only on Saturday evening before 9.30 p. m., and on Monday afternoons before 4.30.

Students who wish to have a guest for a meal, must ask the permission of the Dean and of the lady in charge of the dining-room.

It is a pleasure to have parents and friends visit the institution, and if they will kindly notify the President of any intended visit he will be glad to engage board for them at a hotel or a private boarding-house. It is neither convenient nor deemed advisable for the College to entertain.

No permission is granted for absence over Saturday and Sunday, except upon a special request addressed to the Dean by the parent or guardian. This permission will be granted only twice before Christmas and three times after it.

Girls living in or near Charlotte will be allowed a week-end at home once a month. Calls and short visits in town will be made only with the permission of the Dean.

HOUSEHOLD RULES

Rooms must be kept in order. The young lady in charge for the week must have her name on the door, and she will be held responsible for the neatness of her room. There must be a special cleaning Monday morning.

Rooms must be ready for inspection by half-past eight o'clock. Marks will be given for all articles not in their proper places at any time after that.

Those too sick to attend classes must go to the infirmary. None but the sick will be allowed in the infirmary.

Everyone is required to be punctual at meals, and no one will be excused except in case of sickness,

when she must go to the infirmary. Meals will not be served in the dormitories. Perfect neatness in dress will be required at all meals.

Lights must be extinguished when the bell rings. At that signal all are required to retire, and perfect silence must prevail.

After the retiring bell, no young lady must be out of her room.

All must remain in their rooms during meditation-hour on Sunday.

The Sabbath must be kept in a quiet and orderly manner.

All trunks must be kept locked.

All mail, packages, telegrams, etc., to and from the College, must pass through the hands of the Dean.

No one is allowed to sleep out of her room without the permission of the teacher on duty in the hall.

All students must go to, and also leave, their music practice at the time assigned by the schedule.

Students must not visit the practice-rooms, unless special permission is given for the purpose of duet practice.

Students must have permission to use the telephone. Parents are requested not to telephone between the hours of eight-thirty and three-thirty, also between seven and nine p. m.

Lights must be turned out when students leave their rooms.

A part of every Monday must be spent by pupils in regulating their wardrobes, repairing clothing, writing home, and similar duties.

Students are not allowed to purchase any article on credit without written permission from parents or guardians. The amount so authorized must be specified. *But the making of bills under any circumstances is discouraged.*

The girls, in their domestic life in the dormitories, are under the direct care of the matron and the lady teachers, who will have rooms in the different parts of the building, the Dean exercising a general supervision.

THINGS FORBIDDEN

Using telephone without permission.

Leaving lights burning when out of the rooms.

Visiting serving-pantry, kitchen, and laundry.

Removing food or table furniture from the dining-hall.

Familiarity with servants.

Appearing in lower halls or dining-room in negligee.

Boisterous conduct, loud laughing or talking, in the house or on the street, is prohibited at all times.

Use of chafing dishes or electric irons.

Non-resident pupils will have access only to rooms and exercises connected with their studies, unless by special permission. Nor will they be allowed to visit boarding pupils in their rooms.

SPECIAL

All students and all parents or guardians are asked to read the following with care and attention.

Parents and guardians who place their daughters in the College are understood to accept the conditions as defined in this catalog.

Parents cannot give their daughters permission to do what is prohibited, nor omit what is required by the rules of the College, and these rules apply to all students.

The enforcement of all rules published in this catalog is regarded as a sacred obligation.

Those students who cannot readily bring themselves into an earnest and conscientious support of the administration; or those whose influence over their fellow-students is for evil rather than good, will not be allowed to remain on the roll of the College.

The entire supervision of every department of the College is vested in the President. Frequent visits from members of the Board of Trustees are invited.

HYMN FOR COMMENCEMENT

WORDS BY DR. CLARA L. NICOLAY

MUSIC BY ELSIE L. STOKES

OUR MOTHER AND OUR QUEEN

Oh time of happiness and youth,
 Of joyful consecration,
Of holy zeal for faith and truth,
 And love-born inspiration;
When earth is clad in vernal hue,
 The skies in golden sheen—
We raise our hymn of joy to you,
 Our Mother and our Queen.

You lead from life's uncertain dawn
 To glorious day your daughters;
In golden pitchers you have drawn
 The floods of living waters.
And round thy banner, blue and blue,
 A faithful host is seen,
True to their honor, true to you,
 Our Mother and our Queen.

Though roseclad hope may open wide
 The future's golden portal;
And love shall crown—a happy bride—
 Our brows with wreaths immortal;
Though all our dreams were coming true,
 Yet nought our hearts can wean,
Nor turn our grateful thoughts from you,
 Our Mother and our Queen.

To grief and joy—as years go past—
 Points fate's unerring finger;
But changeless shall, while life will last,
 Your blessings with us linger,
Unfaltering love, like morning dew,
 Shall keep your mem'ry green—
Our lodestar bright, we gaze on you—
 Our Mother and our Queen.
